  Certification
  July 13, 2023

- **Play It Safe: Manage Security Risk(Google)**, Remote
  Certification
  July 21, 2023

- **Ramapo College of New Jersey,** Mahwah, NJ
  Bachelor of Business Administration, Management
  2009 - 2013

Portfolio Highlights

Watch It Later / April 2022 – June 2022

Team Project / Role: Front End Engineer

Project Website: Watch It Later Website

Code: Github Code

- Full-stack application using TheMovieDatabase API to view and search movies and television shows.
- Users can create an account to then rate and leave comments on their favorite movies or television shows and even create a personal watchlist.
- **Tech Used**: Node, Express, MySQL, Sequelize ORM, Bulma, BCrypt, Axios, Express-Session

Code Flow / July 2022 – Oct 2022

Team Project / Role: Backend and Frontend

Project Website: Code Flow Website

Code: Github Code

- This is a social media app where users can post and share their coding projects.

- **Tech Used**: React, GraphQL, Mongoose, Express

Groupzy Project / Jan 2023 – Current

Team Project / Role: Backend Engineer

Project Website: *Not Available At This Time*

Code: *Private Project*

- Groupzy is a sports application that allows coaches to create workouts, assign times to athletes, and see analytics for their athletes and groups.
- Groupzy is a mobile application that is built with Ionic and uses a GraphQL backend
- **Tech Used**: Ionic, Typescript, GraphQL, React, React Router, Gradle, Java, Capacitor, Jest, Express-Session

Photo Port / Nov 2022 – Jan 2023

Solo Project

Project Website: Photo Port Website

Code: Github Code

- This project is a single-page application using React to dynamically render content to a portfolio page including a "About Me" and "Contact Me" page and gallery sections.
- **Tech Used**: React, Jest, React-Dom, Github Pages

Twitch UI / Oct 2022 – Dec 2022

Solo Project

Project Website: Twitch UI Website

Code: Github Code

- This app is a replica of the front page of the well known website, Twitch.
- **Tech Used**: NextJS, NextAuth.js, Tailwind CSS
